“Always ready to learn and explore”

Summary

Hey there, I am Maaz Karim learning about Programming, I have a great interest in learning new things. I know about Java and Python, and I am studying more on Machine Learning. I also have a intermediate knowledge of front-end Web Development and I am open to contributions. Whenever I am not studying you can find me playing mobile games or vibing to playlists. Interested in devising a better problem-solving method for challenging tasks, and learning new technologies and tools if the need arises.
